Clinical Seminar

Curriculum of Excellence in Neonatology:

Glomerular and tubular disorders of the neonate: from physiopathology to clinical practice

OBJECTIVES

IPOKRATES seminars provide high quality postgraduate education which enables professional to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. This seminar deals with understanding physiopathology of renal function and managing main glomerular and tubular disorders in the premature and mature newborn.

LECTURERS

Chevalier R	University of Virginia, Charlottesville, USA
Gouyon JB	University of Dijon, Dijon, France
Guignard JP	University of Lausanne, Lausanne, Switzerland
Simeoni U	University of Marseille, Marseille, France
Storme L	University of Lille, Lille, France

DATE September 24-26, 2009; starts at 9:00 am

PLACE "La Nef", 1, Place du Théâtre, Dijon, France

LIMITED NUMBER OF
PARTICIPANTS: 60

Please Note: Only registered participants, NO on site registration!

PROGRAM DESIGN Guignard JP, Lausanne; Gouyon JB, Dijon

TARGET GROUPS Neonatologists and pediatricians, doctors in intensive care and anesthesiology. Doctors interested in hemodynamics, diagnosis and management of neonatal renal disturbances.

MAJOR SPONSORS Dräger, Elsevier, Nestlé Nutrition Institute, Heinen + Löwenstein

LOCAL ORGANIZER Silvia Iacobelli MD and Francesco Bonsante MD
Jean-Bernard Gouyon, Professor of Pediatrics
Neonatal and Pediatric Intensive Care Unit • University of Dijon
10, Boulevard de Lattre de Tassigny BP 77908 • 21079 Dijon Cedex/France
Phone + 33 (0) 380293031 poste 16479 • Fax +33 (0) 380293803
E-mail: sylvia.iacobelli@chu-dijon.fr

INFORMATION/REGISTRATION **IPOKRATES Head Office** c/o m:con – mannheim:congress GmbH
Rosengartenplatz 2 • 68161 Mannheim / Germany

Please register via internet: <http://www.ipokrates.info>

PARTICIPATION FEES	Single person	before June 30, 2009	300.- €
	Single person	after July 1, 2009	350.- €
	Two persons ("twin participation")		500.- €

Curriculum of Excellence in Neonatology:
Glomerular and tubular disorders of the neonate:
from physiopathology to clinical practice

Dijon, France
September 24-26, 2009

PROGRAM

THURSDAY, SEPTEMBER 24, 2009

Physiology of the immature kidney	Guignard JP
Salt and water intake in the VLBW infant	Gouyon JB
Assessment of systemic and renal hemodynamics in the neonate	Storme L

Lunch Time

Metabolism of potassium in the VLBW	Simeoni U
Ureteral obstruction and the developing kidney	Chevalier R

Practical session: case presentation and solving actual problems
(Managing renal function in hypotensive neonates, managing salt/water intake in VLBW infants)

FRIDAY, SEPTEMBER 25, 2009

Acute renal failure in the neonate	Gouyon JB
Treating hemodynamic disturbances in the VLBW infant	Storme L
Effect of prenatal and postnatal drugs on newborn kidney	Simeoni U

Lunch Time

Congenital renal tubular disorders	Guignard JP
Antenatal and postnatal management of obstructive nephropathy	Chevalier R

Practical session: case presentation and solving actual problems
(Management of acute renal failure in NICU, nutrition in ARF, peritoneal dialysis in very ill, ELBW infants)

SATURDAY, SEPTEMBER 26, 2009

Hypertension in the newborn infant	Gouyon JB
Ethical issues in perinatal renal diseases	Simeoni U
Long term outcome of renal function in VLBW infant	Guignard JP

Practical session: case presentation and discussion
(Renal thrombosis in the newborn)

Iacobelli S
